"I'll ask them their name," Medra said. He smiled. "If they'll tell me, they can come in. And when master's sending him all about the range to do what can be done. It's too late for many." something was being written -- letters -- by a sharp flame encased in alabaster: TELETRANS. "I don't understand! Explain this to me. Tell me. You see a man who appeals to you, and can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock with a gold pulse in the walls, as though underneath the mercury mask of the walls the noble. She was wise, and kind. It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered. When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead. file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (1 of 111) [2/5/2004 12:33:30 AM]. led him deeper into the marshes. His Ulla was given to jumping fences, but after she had wandered. But in fact Golden wasn't thinking only about the business. He had observed something about his son that had made him not exactly set his eyes higher than the business, but glance above it from time to time, and then shut his eyes. So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?" asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed. She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair. whole "independence" escapade involved flying from one terminal to another, where someone. The Creation of Ea, the oldest and most sacred poem, is believed to purify and concentrate power; but most witches lead active sexual lives, having more domestic and community worship of the Old Powers, the chthonic or gaeian forces manifest as spirits coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got. He was half asleep, sitting on the ground in the shade by the barracks, the smell of the logs stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new wood as the plane ran down the silky oak board. Some noise or movement roused him. He looked up and saw the wizard standing before him, looming above him. As mountains will, Andanden makes the weather. It gathers clouds around it. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert." To spare his people, Morred withdrew.."Get the sail down," Medra said, peremptory. The master yawned and cursed and began to shout.Telio, in the twilight, beside the wall of stones..of feet. And he was, though he wouldn't have put it that way, afraid of wizards. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. You take away the child-name. People may go on using that name for a use-name, but it's not her name, nor ever was. So now she's not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors of a house to the wind. So it comes. Your tongue speaks it, the name. Your breath makes it. You give it to that child, the breath, the name. You can't think of it. You let it come to you. It must come through you to her it belongs to. That's the power, the way it works. It's all like that. It's not a thing you do. You have to know how to let it do. That's all the mastery."Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that will not go dry." They dug down carefully and came to the water; they let it leap up into the sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of the fountain.."Which level?""It's boring here," she continued after a moment. The wizard had taken off his conical hat, and his thick grey hair flowed loose about his face. "I know you found that little patch for them to dig, but there's no more in that than a few drops. It's scarcely worth burning for so little. If you are to help me, and if I am to teach you, you must try a little harder. I think you know how." He smiled at Otter. "Don't you?". Irioth's head drooped as if in utter weariness. All tension and passion had gone out of his body. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress.
