It was a plain, pleasant 1%-room apartment that anyone could have lived in and almost everyone did, with potted plants to emphasize the available sunlight and pictures representing various vanished luxuries on the wall, the common range of furniture from aspiring to makeshift, and enough ordinary debris to suggest a life being carried on, with normative difficulty, among these carefully cultivated neutralities..Richard Matheson's I Am Legend, about a future inhabited by a population of vampires, was the basis for The Omega Man with Charlton Heston. Smith advances the time control. A flicker of darkness, light again, and the ship is gone. He turns back again until he finds it standing out under light canvas past Sandy Hook. Manipulating time and space controls at once, he follows it eastward through a nickering of storm and sun?loses it, finds it again, counting days as he goes. The farther eastward, the more he has to tilt the device downward, while the image of the ship tilts correspondingly away from him. Because of the angle, he can no longer keep the ship in view from a distance but must track it closely. November 21 and 22, violent storms: the ship is dashed upward by waves, falls again, visible only intermittently; it takes him five hours to pass through two days of real time. The 23rd is calmer, but on the 24th another storm blows up. Smith rubs his eyes, loses the ship, finds it again after a ten-minute search.. "Thank you very much," said Amos and walked on till he came to another sailor whose feet were awash in soap suds. The sailor was pushing a mop back and forth so hard that Amos decided he was trying to scrub the last bit of color off the grey boards. "Good evening to you too," said Amos. He glanced from side to side to take in the whole of his audience. "I, ah--I almost didn't make it here at all." He paused, and the last whispers of conversation died away. "A sign in the hall outside says that the fossil display is in twelve-oh-three upstairs." The American Archeological Society was holding its annual convention in the Hilton complex that week. Congreve shrugged "I figured that had to be where I was supposed to go. Luckily I bumped into Matt on the way, and he got me back on the right track." A ripple of laughter wavered in the darkness, punctuated by a few shouts of protest from some of the tables. He waited for silence, then continued in a less flippant voice. "The first thing I have to do is thank everybody here, and all the NASDO people who couldn't be with us tonight, for inviting me. Also, of course, I have to express my sincere appreciation for this, and even more my appreciation for the sentiments that it signifies. Thank you--all of you."
