Three weeks later, the Tharsis Canyon had been transformed into a child's garden of toys. Crawford had thought of no better way to describe it. Each of the plastic spikes had blossomed into a fanciful windmill, no two of them just alike. There were tiny ones, with the vanes parallel to the ground and no more than ten centimeters tall. There were derricks of spidery plastic struts that would not have looked too out of place on a Kansas farm. Some of them were five meters high. They came in all colors and many configurations, but all had vanes covered with a transparent film like

They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. Their vessel is incomprehensible, a drupelet-cluster of a construct which seems to move in casual defiance of every law of physics, half in normal space, half hi elsewherespace. It is an enormous piece of hardware, this Sreen craft, a veritable artificial planetoid: the antiseptic bay in which our own ship now sits, for example, is no less than a cubic kilometer in volume; the antechamber in
