

THE ARGUMENT OF COUNSELLOR BOTHERUM AND COUNSELLOR BOREUM AND

"Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was. "Meridional, rasts: one hundred and six, one hundred and seventeen, zero eight, zero two..right enough! I'll have him here as long as I choose, and that's the end of it." and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High. "I can't think, here." "Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time. Her eyes were clear orange-brown, like dark topaz or amber. They were strange eyes, right on a level with his own..in the earliest days dragons and human beings were all one kind. I do love to see your father happy and proud of you. But I can't bear to see you unhappy, without pride! I don't know. Maybe you're right. Maybe for a man it's only one thing ever. But I miss hearing you sing." The first test is the great test, Dragonfly," he said. Every night he lay alone in this cabin he had planned this conversation. I looked at her; she stopped smiling. . . She went to the wall, and it opened like a small bar. She stood in front of the opening." "All right," she said finally. "I'm not keeping you. But now this. . ." She was confused. . . up whatever they could in the way of coppers and free beer. Any festivity drew itinerant. "He told me what it's like," Dragonfly said. Azver nodded, in silence. . . "More a matter of getting in with it, I think." The old man was burying the core of his apple and. He treasured her rustic sayings of that kind. Sometimes she frightened him, and he resented it. . . The young man slept on a pallet under the little west window of Dulse's house for three years. He learned wizardry, fed the chickens, milked the cow. He suggested, once, that Dulse keep goats. He had not said anything for a week or so, a cold, wet week of autumn. He said, "You might keep some goats." "It's the curds." . . . darkness over a glittering roof. Under the roof is the House of the King. Labby isn't as bad as he looks. . . of defense and warning. Once those were breached, the pirates took the island not by wizardries. . . Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin. . . When she woke, the Master Patterner was sitting nearby, and a basket was on the grass between. . . Deeds, lays, songs, and popular ballads are still composed as oral performances, mostly by professional singers. New works of any general interest are soon written down as broadsheets or put in compilations. . . Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son. . . moments. Nothing in him was whole, not even his madness. He couldn't remember the name he had told. "This is not a teller's tale, mistress. But they had. . . will be born dead, I know it!" . . . Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room. Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you understand that?" "No," Diamond said. . . "I told them," he said, "that if they went out Medra's Gate this day, they'd never go back through it into a House they knew. Some of them were for turning back, then. But the Windkey and the Chanter urged them on. They'll be along soon." . . . At that Dulse looked him over again. No cloak, no staff. . . "I have a neighbor," said the black-braided woman, "who might have some paper, if you're after that." . . . Her apparition stood again just outside the spiderweb cords of the spell, gazing at him, and seeing him, for a soft, bluish, sourceless light filled the room. Her sore, raw lips quivered but she did not speak. . . Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them. . . "Breathe, breathe, breathe," Gelluk said, laughing. . . and Otter tried not to hold his breath as they entered the tower. . . "I will come, Medra," she said. She held out her thin hand in a fist, then opened it palm up as if offering him something. Then she was gone. . . "Practice," Rose said, rather sourly. "I know." She flicked a pebble at Diamond. It turned into a. . . differentiation ("division of labor") than in the Archipelago. . . He listened. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles..The witch said nothing. She knew the girl was right. Once the Master of Iria said he would or."I don't see why," she said. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it!
