There were other people on the hill, he saw now, many others, men and women, children, living and of pearly minerals surrounded the mouths of the caves; in these people sat, legs dangling; small. Ivory nodded gravely. "But the Archmage lost all his power in the land of death. Maybe all magery. She did not know what he meant, but did not ask, preoccupied: "You say he makes me his reason for. "She's going there, to the wall, and I can't go with her," she said. "She's going alone and I can't go with her- Can't you go there?" She broke away from Rush, looking again at Tern. "You can go there!". Hemlock dismissed that with a flick of his hand. "I am talking of the True Art," he said. "Now I will be frank with you. I advise you to write your parents -- I shall write them too -- informing them of your decision to go to the School on Roke, if that is what you decide; or to the Great Port, if the Mage Restive will take you on, as I think he will, with my recommendation. But I advise against visiting home. The entanglement of family, friends, and so on is precisely what you need to be free of. All animals were patient, but the patience of the horse kind was wonderful, being freely given. Dogs were loyal, but there was more of obedience in it. Dogs were hierarchs, dividing the world into lords and commoners. Horses were all lords. They agreed to collude. He remembered walking among the great, plumed feet of cart horses, fearless. She saw a burly, dark-skinned man and two boys come out and weed one of the vegetable plots. It eased her mind to watch their careful work. She wished she could help them at it. The waiting and the strangeness were very difficult. Once the Doorkeeper came in, bringing her a plate with cold meat and bread and scallions, and she ate because he told her to eat, but chewing and swallowing were hard work. The gardeners went away and there was nothing to watch out the window but the cabbages growing and the sparrows hopping, and now and then a hawk far up in the sky, and the wind moving softly in the tops of tall trees, on beyond the gardens.."You might keep some goats," Silence said..the law?.."earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right.
